Holistic Development of Students

Dr. P Mahalingam

*Founder Chairman
MD (General Medicine),
DM (Cardiology), FCCP*

Healthcare has never been the work of doctors alone. It is the collective strength of multiple professionals—diagnosticians, technologists, therapists, rehabilitation experts, and caregivers—working in seamless coordination that truly defines patient outcomes. Yet for decades, Allied Health Sciences remained one of the most under-recognised pillars of the healthcare system.

At Santosh Deemed to be University, we chose a different path.

At a time when Allied Health Sciences attracted limited attention, minimal policy focus, and little institutional investment, we consciously began building structured academic programs, clinical training pathways, and professional dignity for these disciplines. This decision was rooted in a simple belief: no healthcare system can function, sustain, or advance without a strong allied health workforce.

Allied health professionals have often been viewed as supporting roles. In reality, they are the building blocks of modern healthcare—enabling diagnosis, ensuring continuity of care, supporting recovery, and translating medical decisions into real patient outcomes. What no doctor can achieve alone is made possible through the skill, precision, and commitment of allied health teams.

Santosh's integrated university-hospital ecosystem was designed to reflect this philosophy in practice. With a 900+ bed teaching hospital at the heart of our campus, Allied Health Sciences education at Santosh has always been clinical, hands-on, and responsibility-driven. Our students learn not in isolation but as part of real multidisciplinary healthcare teams—understanding their roles, accountability, and impact on patients' lives from the very beginning.

Today, national policy has begun to recognise what we believed in years ago formally. The emergence of structured regulation and professional identity through the National Commission for Allied and Healthcare Professions (NCAHP) reflects a long-overdue acknowledgement of this sector's importance. While frameworks are now taking shape at the national level, Santosh had already laid strong academic and clinical foundations for Allied Health Sciences well in advance.

As the University completes three decades of service in healthcare education and patient care, our commitment remains unchanged. We will continue to strengthen Allied Health Sciences as a core academic and professional domain—guided by quality, ethics, clinical relevance, and social responsibility.

I take pride in our students, faculty, clinicians, and healthcare teams who embody this vision every day. They represent the future of healthcare—not as underdogs, but as essential professionals shaping safer, stronger, and more humane health systems.

Vice Chancellor Message

Prof. (Dr) V. N. Mahalakshmi

Vice Chancellor - Santosh Deemed to be University

Choosing Allied Health Sciences means choosing a career at the core of healthcare delivery. At Santosh Deemed to be University, we are proud to shape professionals who are competent, confident, and compassionate. Our programmes are grounded in the University's vision of excellence, guided by a strong mission to develop capable healthcare professionals, and upheld by core values of integrity, innovation, teamwork, and social responsibility.

As you enter the academic session 2026-27, you join a rapidly evolving sector under the National Commission for Allied and Healthcare Professions (NCAHP). We recognize that regulatory changes can be challenging, and our dedicated faculty, academic systems, and mentoring support ensure clarity, compliance, and confidence at every stage.

With hands-on clinical exposure, skill-focused training, and career guidance, our graduates are prepared for rewarding opportunities in India and abroad. We warmly welcome you to Santosh University—where meaningful healthcare careers begin.

Dean's Message

Prof. (Dr) Moattar Raza Rizvi

Dean - Allied Health Sciences

At Santosh Deemed to be University, the Faculty of Allied Health Sciences stands as a beacon of innovation, compassion, and clinical excellence. Guided by the vision of the National Education Policy (NEP) 2020 and inspired by Viksit Bharat@2047, we are transforming healthcare education through scientific rigor, digital integration, and AI-enabled learning. Our academic ecosystem emphasizes interdisciplinary collaboration, ethical practice, and emerging alignment with the National Commission for Allied and Healthcare Professions (NCAHP). As Santosh celebrates over three decades of educational leadership, we remain devoted to nurturing AI-literate, future-ready professionals who will advance healthcare with knowledge, empathy, and innovation for a progressive and equitable India.

HOD's Message

Dr Manish Sabharwal

***Medical Director - Santosh Hospitals,
Director - MHA***

As the Medical Director and Head of Hospital Administration, I am excited to guide you on a transformative journey in healthcare leadership. Our Hospital Administration program combines cutting-edge education with real-world applications, preparing you for the challenges of modern healthcare. With a commitment to excellence, innovation, and compassionate care, we aim to shape the future leaders of the healthcare industry. Join us at Santosh, where academic rigor meets practical wisdom, ensuring your success in the dynamic world of Hospital Administration. Your path to making a difference in healthcare starts here!

Program **Overview**

The program builds skilled healthcare administrators through training in hospital operations, quality management, finance, healthcare laws, and practical internships, preparing graduates for leadership roles in hospitals and healthcare organisations.

Masters In Hospital Administration

The Department of Hospital Administration at Santosh Medical College is dedicated to developing skilled professionals capable of efficiently managing healthcare institutions, hospital operations, and patient care services. The comprehensive curriculum integrates essential components of healthcare management, hospital planning, quality assurance, financial management, healthcare laws, and organisational leadership. Students receive hands-on exposure through structured internships, real-time departmental rotations, case studies, and industry collaborations that enhance their practical understanding of healthcare systems. With guidance from experienced faculty and access to state-of-the-art infrastructure, learners build strong competencies in administrative decision-making, problem-solving, communication, and strategic management.

The program prepares graduates to excel in diverse roles across hospital management, healthcare consulting, operations management, public health administration, and health services leadership. By blending academic excellence with practical training, the department equips students for rewarding careers in hospitals, healthcare organisations, government health departments, and the rapidly growing medical tourism industry.

Course **Insights**

Hands-on learning in hospital settings

Practical curriculum focused on real skills

Quality & Patient Safety Focus

Career-focused outcomes for professional success

Hands-on industry aligned practical training

Medical Tourism Exposure

Strong research and analytical skill development

Leadership skills development and professional growth

Course **Curriculum** (2 Years)

Semester	Focus Areas
1 st	Introduces students to healthcare systems, hospital organization, and management principles. Emphasis is placed on understanding hospital functioning, healthcare economics, and professional communication, supported by early exposure to hospital departments.
2 nd	Focuses on hospital operations, Healthcare HR & Workforce planning, healthcare laws and ethics, quality management, patient safety, and research methodology. Students engage in departmental postings, documentation review, and basic operational audits.
3 rd	Develops competencies in strategic hospital management, healthcare marketing, finance, materials management, digital health, NABH standards, clinical audits, and medical tourism. Learning is strengthened through case studies and applied projects.
4 th	Provides intensive hands-on training through a full-time hospital internship and hospital-based dissertation. Students function as trainee administrators, participating in real-time decision-making, audits, and quality initiatives.

Career Prospects

Public/ Private Hospital Operations

Work in government or private hospitals, healthcare institutions, medical organisations, consulting firms, and public health agencies across diverse administrative roles.

Academic Faculty

Build a promising teaching career in renowned institutions.

Training and Research
