DM (Cardiology), FCCP*

Healthcare has never been the work of doctors alone. It is the collective strength of multiple professionals—diagnosticians, technologists, therapists, rehabilitation experts, and caregivers—working in seamless coordination that truly defines patient outcomes. Yet for decades, Allied Health Sciences remained one of the most under-recognised pillars of the healthcare system.

At Santosh Deemed to be University, we chose a different path.

At a time when Allied Health Sciences attracted limited attention, minimal policy focus, and little institutional investment, we consciously began building structured academic programs, clinical training pathways, and professional dignity for these disciplines. This decision was rooted in a simple belief: no healthcare system can function, sustain, or advance without a strong allied health workforce.

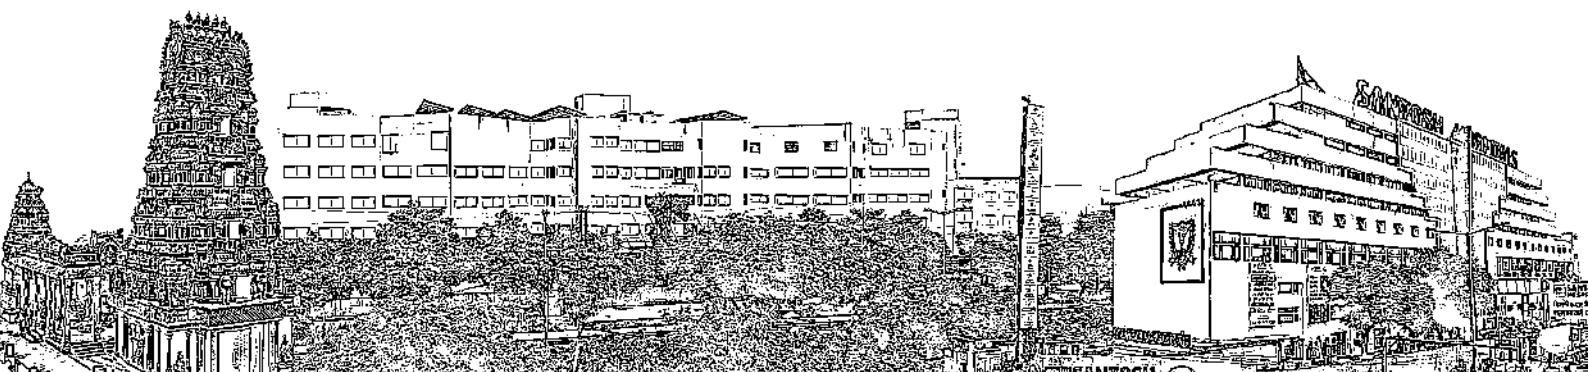

Allied health professionals have often been viewed as supporting roles. In reality, they are the building blocks of modern healthcare—enabling diagnosis, ensuring continuity of care, supporting recovery, and translating medical decisions into real patient outcomes. What no doctor can achieve alone is made possible through the skill, precision, and commitment of allied health teams.

Santosh's integrated university-hospital ecosystem was designed to reflect this philosophy in practice. With a 900+ bed teaching hospital at the heart of our campus, Allied Health Sciences education at Santosh has always been clinical, hands-on, and responsibility-driven. Our students learn not in isolation but as part of real multidisciplinary healthcare teams—understanding their roles, accountability, and impact on patients' lives from the very beginning.

Today, national policy has begun to recognise what we believed in years ago formally. The emergence of structured regulation and professional identity through the National Commission for Allied and Healthcare Professions (NCAHP) reflects a long-overdue acknowledgement of this sector's importance. While frameworks are now taking shape at the national level, Santosh had already laid strong academic and clinical foundations for Allied Health Sciences well in advance.

As the University completes three decades of service in healthcare education and patient care, our commitment remains unchanged. We will continue to strengthen Allied Health Sciences as a core academic and professional domain—guided by quality, ethics, clinical relevance, and social responsibility.

I take pride in our students, faculty, clinicians, and healthcare teams who embody this vision every day. They represent the future of healthcare—not as underdogs, but as essential professionals shaping safer, stronger, and more humane health systems.

Vice Chancellor Message

Prof. (Dr) V. N. Mahalakshmi, ***Vice Chancellor - Santosh Deemed to be University***

Choosing Allied Health Sciences means choosing a career at the core of healthcare delivery. At Santosh Deemed to be University, we are proud to shape professionals who are competent, confident, and compassionate. Our programmes are grounded in the University's vision of excellence, guided by a strong mission to develop capable healthcare professionals, and upheld by core values of integrity, innovation, teamwork, and social responsibility.

As you enter the academic session 2026-27, you join a rapidly evolving sector under the National Commission for Allied and Healthcare Professions (NCAHP). We recognize that regulatory changes can be challenging, and our dedicated faculty, academic systems, and mentoring support ensure clarity, compliance, and confidence at every stage.

With hands-on clinical exposure, skill-focused training, and career guidance, our graduates are prepared for rewarding opportunities in India and abroad. We warmly welcome you to Santosh University—where meaningful healthcare careers begin.

Dean's Message

Prof. (Dr) Moattar Raza Rizvi ***Dean - Allied Health Sciences***

At Santosh Deemed to be University, the Faculty of Allied Health Sciences stands as a beacon of innovation, compassion, and clinical excellence. Guided by the vision of the National Education Policy (NEP) 2020 and inspired by Viksit Bharat@2047, we are transforming healthcare education through scientific rigor, digital integration, and AI-enabled learning. Our academic ecosystem emphasizes interdisciplinary collaboration, ethical practice, and emerging alignment with the National Commission for Allied and Healthcare Professions (NCAHP). As Santosh celebrates over three decades of educational leadership, we remain devoted to nurturing AI-literate, future-ready professionals who will advance healthcare with knowledge, empathy, and innovation for a progressive and equitable India.

HOD's Message

Dr. Rani Srivastava, ***(Prof.) & HOD - Dept. of Clinical Psychology***

Established in 1997, the Department of Clinical Psychology provides comprehensive mental health services including psychological, intelligence and personality assessments, psychotherapy, counselling, behaviour modification and biofeedback. It also runs a Special Education Wing supporting children needing remedial and special education. The department has expanded steadily with the introduction of the Ph.D. Clinical Psychology program in 2013 and the M.Sc. Clinical Psychology program in 2022. With experienced faculty, strong testing facilities and early clinical exposure, it trains skilled, compassionate psychologists for diverse populations.

Program **Overview**

Clinical Psychology is a clinically oriented practice-driven programme that blends scientific assessment, ethical therapeutic skills, and supervised clinical training with research and interdisciplinary collaboration to enhance mental health care across the lifespan.

Psychology

This programme is designed to prepare professionally competent and ethically grounded clinical psychologists through a structured, competency-based approach to training. It focuses on developing core clinical skills in psychological assessment, diagnosis, and evidence-based therapeutic interventions through supervised practice across hospital and community settings, enabling post graduates to work effectively with individuals across the community.

The curriculum integrates foundational knowledge in psychopathology, psychometrics, counselling skills, and advanced therapeutic approaches, with strong emphasis on cultural sensitivity, ethical practice, and community mental health. Students are trained to understand psychological concerns within family, occupational, and societal contexts, ensuring comprehensive and person-centred clinical formulation.

In addition, the programme builds research competence through formal training in research methodology and the completion of a supervised dissertation, promoting evidence-informed clinical practice in Psychiatry, Medicine, Paediatrics, Gynaecology, Emergency Medicine, Rehabilitation (Physiotherapy, Occupational Therapy) units. Interdisciplinary exposure and structured clinical postings further prepare graduates to address contemporary mental health needs with professionalism, responsibility, and compassion.

Course **Insights**

Research-driven pathways for professional growth

Clinical Case Formulation Skills

Lifespan Clinical Intervention Strategies

Community-Integrated Mental Healthcare

Evidence-Based Psychotherapeutic Practice

Course **Curriculum** (2 Years)

Year	Focus Areas (As per NCAHP Guidelines)
1 st	Core foundations in psychopathology, psychological assessment, counselling skills, psychometrics, and supervised clinical exposure.

Through interactive assessments and compassionate support, our Clinical Psychology team nurtures attention, emotional balance, and cognitive development, empowering every child's unique learning journey.

Student's Testimonials

“

It has been truly inspiring to witness their growth, dedication, and commitment throughout the M.Sc. Clinical Psychology journey. Their compassion, curiosity, and genuine desire to support others have consistently stood out. This milestone is only the beginning, and I'm confident they will create a meaningful and lasting impact in the world of mental health.”

Parul Kaushik, Batch 2022-2023

“

Watching this journey unfold has been truly inspiring. From the very beginning, their passion for understanding people and creating meaningful change was evident. Completing the M.Sc. in Clinical Psychology is a remarkable milestone, and I'm confident they will carry empathy, insight, and purpose into every step of their professional path ahead.”

Kumud Joshi, Batch 2022-2023

Clinical psychologist facilitating group counseling, promoting emotional awareness, resilience, trust, and supportive mental health dialogue session.

Pediatric clinical physiology assessment encourages cognitive development, sensory integration, fine motor coordination, and attention skills through structured play-based activities under guided supervision in early childhood.
