Holistic Development of Students

Dr. P Mahalingam

*Founder Chairman
MD (General Medicine),
DM (Cardiology), FCCP*

Healthcare has never been the work of doctors alone. It is the collective strength of multiple professionals—diagnosticians, technologists, therapists, rehabilitation experts, and caregivers—working in seamless coordination that truly defines patient outcomes. Yet for decades, Allied Health Sciences remained one of the most under-recognised pillars of the healthcare system.

At Santosh Deemed to be University, we chose a different path.

At a time when Allied Health Sciences attracted limited attention, minimal policy focus, and little institutional investment, we consciously began building structured academic programs, clinical training pathways, and professional dignity for these disciplines. This decision was rooted in a simple belief: no healthcare system can function, sustain, or advance without a strong allied health workforce.

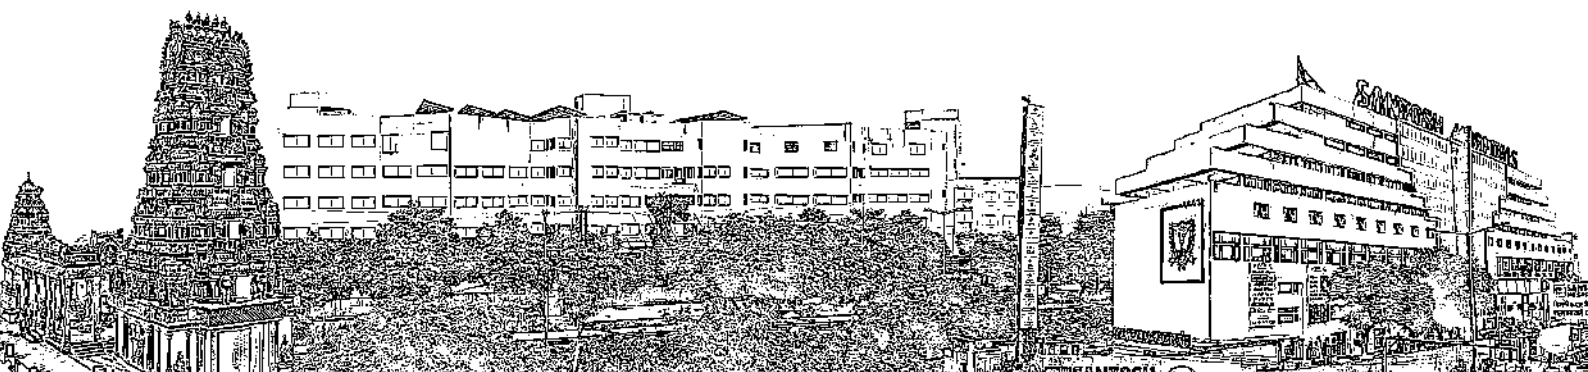

Allied health professionals have often been viewed as supporting roles. In reality, they are the building blocks of modern healthcare—enabling diagnosis, ensuring continuity of care, supporting recovery, and translating medical decisions into real patient outcomes. What no doctor can achieve alone is made possible through the skill, precision, and commitment of allied health teams.

Santosh's integrated university-hospital ecosystem was designed to reflect this philosophy in practice. With a 900+ bed teaching hospital at the heart of our campus, Allied Health Sciences education at Santosh has always been clinical, hands-on, and responsibility-driven. Our students learn not in isolation but as part of real multidisciplinary healthcare teams—understanding their roles, accountability, and impact on patients' lives from the very beginning.

Today, national policy has begun to recognise what we believed in years ago formally. The emergence of structured regulation and professional identity through the National Commission for Allied and Healthcare Professions (NCAHP) reflects a long-overdue acknowledgement of this sector's importance. While frameworks are now taking shape at the national level, Santosh had already laid strong academic and clinical foundations for Allied Health Sciences well in advance.

As the University completes three decades of service in healthcare education and patient care, our commitment remains unchanged. We will continue to strengthen Allied Health Sciences as a core academic and professional domain—guided by quality, ethics, clinical relevance, and social responsibility.

I take pride in our students, faculty, clinicians, and healthcare teams who embody this vision every day. They represent the future of healthcare—not as underdogs, but as essential professionals shaping safer, stronger, and more humane health systems.

Vice Chancellor Message

Prof. (Dr) V. N. Mahalakshmi, ***Vice Chancellor - Santosh Deemed to be University***

Choosing Allied Health Sciences means choosing a career at the core of healthcare delivery. At Santosh Deemed to be University, we are proud to shape professionals who are competent, confident, and compassionate. Our programmes are grounded in the University's vision of excellence, guided by a strong mission to develop capable healthcare professionals, and upheld by core values of integrity, innovation, teamwork, and social responsibility.

As you enter the academic session 2026-27, you join a rapidly evolving sector under the National Commission for Allied and Healthcare Professions (NCAHP). We recognize that regulatory changes can be challenging, and our dedicated faculty, academic systems, and mentoring support ensure clarity, compliance, and confidence at every stage.

With hands-on clinical exposure, skill-focused training, and career guidance, our graduates are prepared for rewarding opportunities in India and abroad. We warmly welcome you to Santosh University—where meaningful healthcare careers begin.

Dean's Message

Prof. (Dr) Moattar Raza Rizvi ***Dean - Allied Health Sciences***

At Santosh Deemed to be University, the Faculty of Allied Health Sciences stands as a beacon of innovation, compassion, and clinical excellence. Guided by the vision of the National Education Policy (NEP) 2020 and inspired by Viksit Bharat@2047, we are transforming healthcare education through scientific rigor, digital integration, and AI-enabled learning. Our academic ecosystem emphasizes interdisciplinary collaboration, ethical practice, and emerging alignment with the National Commission for Allied and Healthcare Professions (NCAHP). As Santosh celebrates over three decades of educational leadership, we remain devoted to nurturing AI-literate, future-ready professionals who will advance healthcare with knowledge, empathy, and innovation for a progressive and equitable India.

Message from the Esteemed Mentor

Prof. (Dr) R. K. Sharma, ***Professor Emeritus - Santosh College of Occupational Therapy***

We are passionate about making a meaningful impact in the field of occupational therapy and rehabilitation. Our constant endeavour is to provide the best learning environment for students by equipping them with the latest knowledge, skills, and technological advancements in the profession. We aim to groom competent professionals capable of meeting modern healthcare standards. The superspeciality Santosh Medical College & Hospital offers excellent opportunities for hands-on clinical training and extensive exposure, enabling students to become confident and skilled occupational therapists.

Program **Overview**

Occupational Therapy is a holistic, evidence-based profession enabling independence, preventing disability, promoting wellbeing, and meaningful participation across the lifespan through clinical reasoning, research, and leadership.

Occupational Therapy

The Bachelor and Master of Occupational Therapy programmes are designed in accordance with the competency-based curriculum prescribed by the National Commission for Allied and Healthcare Professions. Together, they ensure academic excellence, professional competence, and alignment with nationally mandated and internationally accepted standards of Occupational Therapy education and practice.

The undergraduate programme develops strong foundations in biomedical, behavioural, psychosocial, and occupational sciences, supported by progressive clinical exposure and outcome-oriented learning. The postgraduate programme further strengthens advanced clinical reasoning, specialization, research scholarship, leadership, and evidence-based practice for managing complex occupational performance challenges.

Across both levels, the curriculum emphasizes functional assessment, occupation-based intervention, interdisciplinary collaboration, ethical accountability, communication, community engagement, research competence, and lifelong learning. Graduates are prepared to serve as competent clinicians, advanced practitioners, educators, researchers, and leaders in diverse healthcare settings in India and globally.

Course Insights

Competency-based curriculum aligned with NCAHP standards

Accredited by AIOTA and WFOT for global excellence.

100 % campus placement jobs
